

GET Program Historical Unit Prices (1998 - 2015)

The GET unit price is established through a complex actuarial formula which accommodates projected tuition increases, projected investment returns, a stabilization reserve, amortization of past losses* and administrative costs.

* Note that the amortization amount was paid by customers who purchased units at a price of \$163 or greater. This amortization is being automatically refunded to all Account Owners for all unredeemed units purchased at \$163 or greater. Account Owners can expect to receive refund checks in December of 2015.
